

DC LIGHT DUTY PIPE RACK

Designed, tested, and certified by Skyjack

Skyjack's DC light duty pipe rack is meant for maximizing platform work space without sacrificing productivity. Available on most SJIII scissor lifts, the pipe rack is an ideal aid for plumbers, electricians and maintenance workers, who want to organize platform materials without limiting machine movement within tight spaces. Mounted on opposite ends of the platform, the pipe rack supports a rated load of 50 or 100 lbs depending on machine model. The pipe rack is intended for carrying pipes/conduit up to a maximum diameter of 40 mm.
