

MIGHTY MICROS MEAN BUSINESS

Our new micro scissor range represents a significant new option in the low level access arena; ideal for easy accessibility into tight spaces.

AC electric drive provides outstanding duty cycles and increased return on investment through reduced maintenance needs.

The **SJ3213 micro** and **SJ3219 micro** combine low cost of ownership with our renowned product support.

- ✓ 5.96 m and 7.5 m working heights
- ✓ 227 kg platform capacity
- ✓ AC electric drive performance
- ✓ 0.5 m rollout extension deck
- ✓ Low GVW, fits standard elevator

SIMPLY ELECTRIC, SIMPLY MORE

Select Plant Hire has taken a significant step toward a greener future with the purchase of 11 new electric and hybrid boom lifts from long-standing partner Skyjack, becoming the first UK customer to acquire Skyjack's all-electric boom models.

This investment marks the beginning of a major renewal of our current Powered Access 3b fleet, with a strong focus on sustainability and innovation. Following successful trials and positive feedback from both operators and clients, we have added the Skyjack SJ45 and SJ60 AJE+ electric booms to our fleet. The first two machines have already been deployed and are helping to lower emissions across our projects.

Dean Marks, Skyjack European Sales Manager, stated:

"Select Plant Hire's investment in our latest range of electric and hybrid booms is a clear testament to the industry's shift toward sustainable solutions, and at Skyjack we are committed to delivering equipment that aligns with the future of responsible construction. By choosing energy-efficient machinery, customers are not only enhancing operational performance but also reducing environmental impact."

The Skyjack SJ45/60 AJE+ models also feature advanced telematics for remote diagnostics, further improving efficiency and reducing downtime.

**Vertikal
days**

Newark showground in Nottingham, UK
was the venue for the 2025 Vertikal Days
event.

For Skyjack, it marked the
first public showing of our
Micro Scissor Range, and the
opportunity for visitors to get to
grips with the latest All-Electric
and Hybrid- Electric Booms. In
addition, we hope you enjoyed
the Skyjack sponsored networking
event with its Mexican flavour!

Skyjack took the opportunity to
showcase the recently launched
Hybrid-Electric Rough Terrain
Booms at the JDL show in Beaune,
17-19 September.
